EXPERIENCE

Frontend Developer

TEMPLATE.NET

Feb 2025 – Present

- **Project:** [Template.net](#) - An AI-powered platform providing customizable templates for documents, designs, presentations, and digital content creation at scale, serving 5M+ monthly users.
- Developed and maintained AI-powered UI features using React and TypeScript.
- Improved page performance and load times by optimizing rendering and reducing bundle size.
- Built reusable UI components to standardize design patterns and speed up feature development.
- Collaborated within a team of 14 engineers, designers, and product partners to deliver features end-to-end.
- Implemented SEO best practices and integrated analytics to track user behavior.
- Used AI-assisted tools (Copilot, Claude) to improve development speed and code quality.

Frontend Developer

DOXA HOLDINGS INTERNATIONAL PTE. LTD.

Jun 2021 – Nov 2024

- **Project:** [Doxa Connex 2.0](#) - A SaaS platform streamlining procurement, payments, and financing workflows for the construction industry across Southeast Asia, serving 1,000+ companies.
- Developed scalable frontend modules using React and Redux Toolkit across multiple business domains.
- Designed and maintained a shared component library to improve UI consistency and reduce duplication.
- Wrote Storybook documentation for the component library to improve reuse and team understanding.
- Contributed to micro-frontend architecture, enabling independent deployment and reducing cross-team dependencies.
- Collaborated with a cross-functional team of 13 members to deliver business workflows.

Frontend Developer

ARI TECHNOLOGY

Aug 2020 – May 2021

- **Projects:** [Thermomix](#) - An e-commerce website for Thermomix devices, accessories, and recipe services; [Shariot Admin](#) - An admin platform for managing vehicle bookings, ride requests, and internal operations.
- Worked in a 9-person team on Thermomix and a 6-person team on Shariot Admin.
- Built and maintained the Shariot Admin platform using Angular.
- Supported feature development and UI fixes for the Thermomix e-commerce website.
- Built reusable UI components and turned wireframes into responsive code.
- Supported new feature development and bug fixes together with the frontend team.
- Worked closely with senior developers and designers to deliver tasks on time.

EDUCATION

Ho Chi Minh City University of Technology

[Bachelor of Science in Computer Science](#)

2017 – 2023

CERTIFICATES

- AWS Certified Solutions Architect – Associate [Credential](#)
